ART UNIT 322

Art Unit: 2839

The following is an examiner's statement of reasons for allowance: In addition to arguments presented by applicant in the responses it is noted that the invention provides a solution to a clearly stated problem with respect to "automotive electric motor casing covers having sockets", as discussed in the spec on pages 1,2, see page 1., lines 22-24 . The claims are limited to such systems . While adapters are common, no other prior art of record is directed to this specific matter involving transmission casing covers. .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Neil Abrams at telephone number 571-272-2089.
